VISION

TO BUILD A STRONG MARKET PRESENCE IN THE WORLD THROUGH QUANTUM WORLD COIN ELECTRIC MOBILITY SOLUTIONS COMBINE BY USED QTC TOKEN

MISSION

OUR MISSION IS TO DEVELOP PRODUCTS THAT REDEFINE USER EXPERIENCE AND PROVIDE CONSUMERS WITH THEIR OWN CONTROL OF THE EV MOTORCYCLE , EV CARS , EV VAN AND OTHERS . IN TURN ENFORCING OUR BATTLE AGAINST CLIMATE CHANGE.

Join us for changing the world

BY OWNING QTC NFT

FOR EXAMPLE

CONTROL YOUR OWN BIKE, VEH
SHARING BY OWNING A PART OF IT

1 Real live motorcycle =
\$10,000= 100 QTC NFT .
IF Each NFT =\$100

Start
small

own more !

EARN

BY STAKE, SELL AT MARKET PLACE, RECEIVE RENTAL FOR
BIKE SHARING

JOIN US

be part of
us

Hey ! we came into the market with the single mission of creating climate-friendly product .so, we need you to join us as well because even your small contribution may hit the hardest to climate change.

-now, quantum world will build such products like ess and ev motorcycles and still working on many other products redefine user experience and provide consumers with their control, \.
-for your satisfaction quantum world also gave you an overview of ev-motorcycle, when you visit our office.
furthermore, we are offering a discount to users who use qtc token to buy our merchandise and from our partners

- for example, because Singapore is the most expensive country to own a motorcycle / and vehicle (because of tax) so bike and car sharing is the affordable transport choice

- if a ev motorcycles in Singapore cost \$10,000 so meaning to divide into 100 qtc NFT / each NFT will be \$100 so if every month after running cost, holder of the nft for that ev motorcycles will get profit.

- lastly u also can stake your nft with us / or sell out at the marketplace / receive profit for vehicle sharing. \

- at the end of the day, we quantum serve as a bridge connecting block chain technology with real live usage

+ Ess = energy storage system
